**ZEDFLO HIRE SERVICES: CALIBRATION EQUIPMENT**

**Hire Rates ex GST**

	<p><b><u>BETA MASTERCAL 990: Multi-Function Documenting Calibrator with HART</u></b></p> <ul style="list-style-type: none"> <li>• Measure and source T/Cs, RTDS, Ohms, mA, V, f, pulse trains.</li> <li>• Simultaneous I/P &amp; O/P split screen displays.</li> <li>• Compatible with many 3<sup>rd</sup> party documentation programs.</li> <li>• HART™ configurator supports.</li> <li>• Compatible with BETA pressure modules.</li> </ul>	<p><b><u>\$695.00 / Week</u></b></p>
	<p><b><u>BETA DMC1400: Multi-Function Documenting Calibrator</u></b></p> <ul style="list-style-type: none"> <li>• Measure and source T/Cs, RTDS, Ohms, mA, V, f, pulse trains.</li> <li>• Documents via Excel – no 3<sup>rd</sup> party software required.</li> <li>• Highest accuracy in class: 0.015% internal 4/20mA 2-wire loop supply.</li> <li>• Compatible with BETA pressure modules (via BETA adaptor 700MA).</li> </ul>	<p><b><u>\$395.00 / Week</u></b></p>
	<p><b><u>BETA GAUGE 321: Pressure Calibrator</u></b></p> <ul style="list-style-type: none"> <li>• Dual Sensor, Triple Display.</li> <li>• 2 isolated st. st. pressure sensors (0-100kPa &amp; 0-10,000kPa) with 0.025% accuracy.</li> <li>• Internal 4/20mA 2-wire loop supply.</li> <li>• PT100 I/P for temperature measurement.</li> <li>• 4/20mA input measurement.</li> <li>• Ideal for custody transfer use.</li> <li>• Compatible with BETA Pressure modules.</li> </ul>	<p><b><u>\$275.00 / Week</u></b></p>
	<p><b><u>BETA GAUGE II: Pressure Calibrator</u></b></p> <ul style="list-style-type: none"> <li>• Dual-channel Pressure / Vacuum / Compound Calibrator</li> <li>• Typical accuracy of 0.025% for the majority of ranges.</li> <li>• Compatible with calibration software such as ASTEC™ Cornerstone™, CAL Station™, Base Station™, AMS™ and Documint™. FCINTF communication compatible.</li> <li>• CSA approved I.S.</li> </ul>	<p><b><u>\$375.00 / Week</u></b> <b><u>(Includes 1 pressure module)</u></b></p>
	<p><b><u>PRESSURE MODULES</u></b></p> <ul style="list-style-type: none"> <li>• 24 standard ranges – please contact Zedflo or visit our website for details.</li> <li>• Gauge, vacuum, absolute, compound and differential measurements.</li> <li>• Accuracy specified over 15 °C to 35 °C range.</li> <li>• Isolated and non-isolated measurements, range dependant.</li> </ul>	<p><b><u>\$120.00 / Week</u></b> <b><u>(Per module)</u></b></p>
	<p><b><u>FAST-CAL: Dry Block Temperature Calibrator</u></b></p> <ul style="list-style-type: none"> <li>• Temperature Range: 30°C to 650°C. Accuracy - +/-1% (500°C), 2% (650°C).</li> <li>• Warm up time: 50 to 650°C in 20 minutes.</li> <li>• Supplied with 8mm, 6.5mm and 4.5mm pockets, all 140mm deep.</li> <li>• "I-Cal software provides Ramps &amp; Dwells, automatic calibration of up to 16 sensors, etc</li> </ul>	<p><b><u>\$595.00 / Week</u></b></p>
	<p><b><u>HAND PUMPS</u></b></p> <p>We have a range of hand pumps available to suit your application / pressure range requirements. Please contact Zedflo or visit our website for details.</p>	<p><b><u>\$75.00 / Week</u></b></p>

For full specifications and data sheets of BETA equipment, please contact our Sales Department or visit our website [www.zedflo.com.au](http://www.zedflo.com.au)
